

Cervis leads the industry when it comes to DC Cranes. We have engineered, manufactured and installed complete DC crane packages in many of the nation's largest mills.

Each DC Crane package features mill duty contractors and relays and is manufactured to stringent quality assurance procedures, resulting in the highest quality equipment commercially available in the industry. These systems are safe and reliable, meeting the highest level of control directives for safety in the world (EU directives 99/5 and 98/3).

The Standard for DC Crane Controls:

- Ergonomic
- Portable EEPROM
- State-Of-The-Art Design
- Dual redundant safety circuit
- FCC Approved
- Mill Duty Controls
